DANGEROUS GOODS

Description

Four (4)-hour course intended for material handlers, shippers and carriers, explaining regulatory requirements in plain language.

Course Objectives

Give participants the knowledge required to comply with regulations on the transportation of hazardous goods, by explaining and demonstrating the following :

- Hazardous goods classification principles ;
- Use of packaging standards ;
- Hazard indications ;
- Shipping document contents ;
- Hazardous event reporting requirements ;
- Shipper, carrier and consignee's responsibilities.

Through briefings, workshops and drills, participants will learn how to :

- Classify hazardous goods using Appendices 1, 2 and 3 of the Regulation ;
- Select appropriate packaging ;
- Prepare a shipping document ;
- Apply appropriate hazard indications ;
- Fulfill shipper, carrier or consignee's obligations.

This course is intended for

- Trainers or program managers ;
- Health, Safety & Environment Managers and Specialists ;
- Consultant Experts ;
- Shipping or transportation attendants.
